- Do you have clients who are elderly or disabled and need assistance in providing for long term care?
- Do you have clients who have questions about Social Security, Medicare, Supplemental Security Income, Medicaid, Veterans benefits?
- Do any of your clients need direction in choosing a long term care facility for a family member?
- Do you need easy access to the latest information about wills, trusts, powers of attorney or the estate planning process?

Issues relating to aging and disability touch everyone. As an attorney, you will be asked questions about the many decisions that must be made to provide needed care. *A Practical Guide to Elder and Special Needs Law in South Carolina* is a new and enhanced version of *South Carolina Elder Law: A Practice Manual*. With more than 800 pages, 19 sample forms and 10 exhibits, the book has been expanded to include relevant information not just for seniors but also for those who are disabled and have special needs. This is a guide for every attorney who advises older clients, disabled clients, and families of those who are elderly or have special needs. It is a comprehensive, practical resource that answers not only issues of substantive law, but also helps the attorney work through the many ethical issues inherent in the practice of elder and special needs law.

This book will serve you not only as a reliable guide, but it is also available in CD format which will give you immediate access to the many links to other resources and includes many helpful forms for the practitioner. A sampling of the forms found on the CD include: a representation agreement, client questionnaire for estate planning, several wills from the simple to the complex, durable power of attorney with options for gifting, first party and third party special needs trusts, and a long-term planning questionnaire.
